

**CIA Activity:** Put a dot where you feel each sentence belongs. Do not put any dot on the intersection of the lines!  
Be prepared to explain your thoughts.

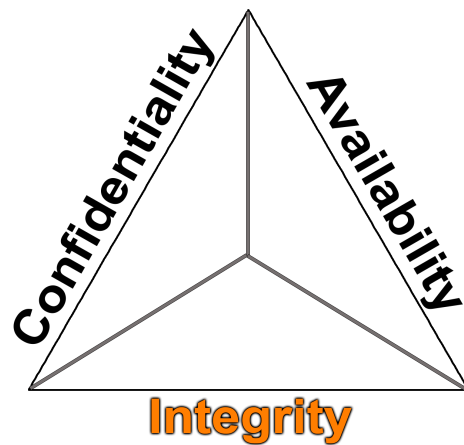

1- Company HR records. This also includes staff putting in their timesheets electronically and accessing tax records at year-end.

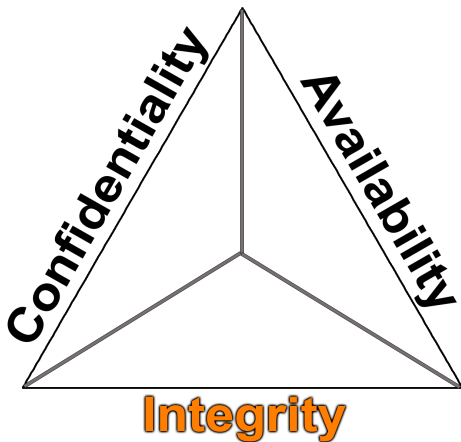

4- Travel site for vacation planning and booking of trips. This site includes customer information and credit card information.

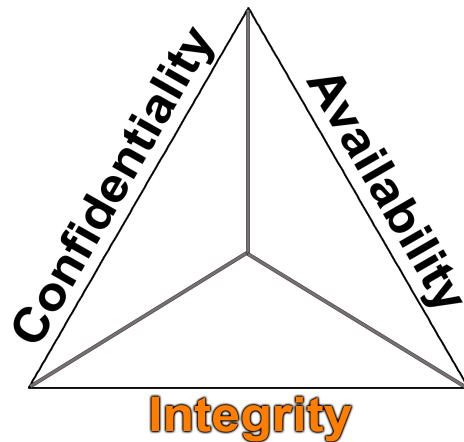

2- Parent access to student records and grades. This includes test and any additional programs the student may be receiving.

5- Patient and health records for customers and employee date entry of patient information.

3- Bank records for customers and electronically conducting personal business.

6- Music streaming service with customer information.
